39. Better restrooms.
40. None.
41. Pit potty needs updated or have year round flushable bathrooms and add a pit potty in the back of the park. Add in a first aid station... (I carry my first aid with me but I'm sure other groups don't) the information board needs to be updated as well. Some things are difficult to read.

100. The last time we went the water fountains were not working.
101. None.

123. We like to use the park when it's cold because I not thrilled with snakes but the restrooms are always closed.
124. None.
125. More bathrooms.
126. I think the state should buy the abandoned quarry on the other side of the county road behind the active quarry. It has many of the same boulders and history with fantastic sheer walls for Rock Climbing.
127. Nothing.
128. Running water in bathrooms.
129. Maybe running some water stations along the trail or just a good fill station near the entrance point. Adding much to the site would take away from the natural charm it has. So many great memories made there with our kids!
130. Visitor center - info on the granite and ruins.
131. Better restrooms.
132. Maybe post more signs and historic info.

- children along that aren't quite big enough to climb the rocks.
148. Anything for sitting or having lunch.
 149. Additional sanitary facilities.
 150. None.
 151. I believe it needs better signage of when the trails are that lead off the concrete path. Sometimes it was hard to tell where the path lead or if it was a path at all. But we enjoyed all the trails we walked!
 152. Keep it natural as possible. Natures playground.
 153. A larger parking lot would be nice.
 154. Updated signage along the walkways.
 155. Nothing. Perfect as is.

 173. A snack bar with drinks.
 174. More bathroom locations other than the trail head. Maybe more trash cans so people don't throw trash on the grounds.
 175. Parking is often difficult and dangerous, additional lots would increase accessibility and safety.
 176. The area needs more bathrooms as well.
 177. Nothing.
 178. Nothing. The park is a very good day trip as it is.
 179. It would be nice to have a water fountain.
 180. This is a really cool park. I would have purchased a drink, snack and souvenir when I visited if it were available.

- 261. Parking.
- 262. Water in the restrooms.
- 263. Better restroom facilities. The ones that are there are like ones from the 50s. You have issues with yellow jackets, flies, etc. in the fall because people leave the doors to these restrooms open.

- 265. Better bathrooms - when the newer ones are open throughout the year and having running water in general.
- 266. Primitive camping spots.
- 267. I can't think of anything at the moment.
- 268. It's a miserable place in the extreme heat during summer months.
- 269. I visited Elephant Rock for the first time in a couple years this summer and was disappointed that it seems as though the park is not being kept up like some of the other state parks. Bathrooms were dirty, path markers missing, stairs starting to get uneven, trash overflowing out of all receptacles.

283. Visitor kiosk could use a fresh update.
284. Expanded parking.
285. Anything, anything, anything to prevent vandalism before it happens.
286. Ok.
287. Because of the accessible trail already in place, this park is appealing to families who need it. Would you consider adding an adult changing table to the bathroom? Our son is too heavy for the baby sized ones, but there are adult ones in the market that sit lower to the ground and are longer. They also fold up on the wall like the baby ones do. This allows individuals who are incontinent to be changed with dignity, rather than on a dirty bathroom floor where they can be seen if someone walks in.
288. If there were funds available for rangers to patrol, it might lend to the safety of visitors. It is possible for youth to get into dangerous situations here if not closely supervised.
289. Gift shop.
290. Nothing.
291. Update the existing restrooms and add additional facilities.
292. None.
293. Nothing is missing. nothing should be added.
294. Additional parking or limiting visitors during peak times.

301. A snack bar.
302. Additional water stations.
303. Better bathrooms.
304. Additional areas for camping.
305. Water play.
306. It would be cool if Elephant Rocks had a campground to give more options for staying this area. We will typically try to hit Johnson Shut-ins and Elephant Rocks on the same trip. JSI is always so full in the summer months.
307. More restrooms and picnic tables.
308. See previous comment.
309. Better bathrooms and water fountains.
310. Flush toilets.
311. None.

313. Needs better bathrooms.
314. More trails would be nice.
315. more parking or a shuttle to Johnson's shut-ins.
316. Bathrooms, nearby hotels or motels.
317. Acquire more land from Missouri Red Quarries or other landowners for another set of parking spaces elsewhere. Maybe buy the other old quarry (where people shoot now) and set it up as a rock climbing/rappelling wall. Granite is better for that than rhyolite at JSI anyway. Contact the Mineral Area Gem and Mineral Society and work with them on any development or interpretation.

- 341. Better bathrooms.
- 342. The park would benefit from better restroom facilities to accommodate the large crowds that utilize the park.
- 343. Camping
- 344. Better Bathrooms
- 345. Maybe additional benches for older people to rest while walking trails. Possibility of a port-a-potty set up. That may not be feasible, but it would be beneficial.
- 346. Port-a-pottys in use instead of physical restrooms in 2021. Did not go in 2022 so restrooms might be open now.
- 347. None.
- 348. Camping sites for RV's with 50amp electric and water.
- 349. A visitor center.
- 350. Campground.
- 351. None.
- 352. Area needs better marking for Direction.
- 353. More tables in picnic areas.
- 354. Grills & accessible picnic tables on accessible path of travel. A ramp or lift to get up higher to see what others see climbing. Even a video screen showing the current views of the day.
- 355. A park store is needed.
- 356. Overflow parking.
- 357. Resurfacing the trails within the rocks.
- 358. If it could be done without interfering with the natural landscape, a nearby lodge with cabins and a restaurant similar to the one at Echo Bluff would be nice.
- 359. More bathrooms.
- 360. Refreshments.
- 361. Very disappointing that all the lookout towers are locked up.
- 362. None.
- 363. It has been several years since I was there but I recall that the bathrooms were pretty bad.
- 364. visitor center.
- 365. More playground equipment.
- 366. Greater lodging choices.
- 367. Bathrooms-maybe another one or more stalls.
- 368. Visitor store. We needed sunblock and snacks that we

- forgot last time & souvenir for our visit.
- 369.** Clean, fresh water restrooms.
- 370.** More non paved trails around the park.
- 371.** Restrooms with actual plumbing. Not a fan of port-a-potty style toilets.
- 372.** better restrooms.
- 373.** Better/ more bathrooms.
- 374.** None is needed.

- 378.** Ability to fill water bottles.
- 379.** More toilet facilities.
- 380.** Gift shop.

- 382.** Parking is usually very tight and we have to park in unmarked places. Restrooms are limited, usually very smelly. More of each would be appreciated.
- 383.** Dining.
- 384.** Need more restrooms and picnic areas. Every time we have gone, the place was overcrowded and we had to picnic out of our trunk or on the ground.
- 385.** Could add some RV camping and should have a better parking lot. Always too crowded.
- 386.** I feel as though I wish there was one more bathroom somewhere closer to the rocks/along the paths of the trail.
- 387.** Restrooms.
- 388.** Parking can be difficult.
- 389.** More updated restrooms
- 390.** Nice bathrooms.
- 391.** Rock climbing. The average age of humans in the USA is rising and a study by North face shows 30% of people are interested in rock climbing. Also since the pandemic the percentage of the population using outdoor activities as their recreational activity has increased by 6.9 percent according to outdoorindustry.com

414. Showers.
415. The water fountains through the park haven't worked in years. I would like to be able to fill a water bottle or fill my dogs water dish will walking through the park.
416. More parking! If there is room for it without taking away from the park land. More picnic tables with grills so we can cook hot dogs/burgers or something rather than just bringing sandwiches or cold food. Especially since there aren't many restaurants close by. When we come we spend most of a day here, so these would be nice to add. I love the natural feel of the park though, so don't change it too much! Most people come to see/climb on the rocks. That's enough stuff to do.
417. Lodging, a general store, playgrounds.
418. More things added to do.
419. Always expand pet facilities and walk ability.
420. Better parking, or shuttle service from elsewhere during peak months.
421. Please fix the braille and educational signs. We don't read braille, but the signs added information about the area and certain features that are otherwise missed.
422. NONE.
423. More parking.
424. I didn't use any provided facility's at the time of visit unfortunately.
425. Bathrooms with running water, better drinking water access.
426. The ability to reserve the handicap picnic table area and the picnic table area by the playground for family reunions.
427. visitor/information center.
428. Camping with electric.
429. Better toilets.
430. None.
431. Better bathroom.
432. More parking.
433. None.
434. More restrooms.
435. I think it has a good amount and have been very satisfied with the bathrooms and vending.

437. Signage for individual boulder names, other climbing/beta specific information.
438. Better access to food.
439. Nature center.
440. More interactive historical activities.
441. More bathrooms and parking. On nice days so many people are there that the bathrooms are almost always full and parking really isn't much of an issue.
442. Small Primitive Campground with limited amenities.
443. N/A.
444. Better restroom facilities and parking.
445. None.
446. The cell service is incredibly low which led to my party getting lost getting into the park.
447. Ways to fill water bottles along the trail would be nice and maybe a restroom halfway around the loop somewhere would be helpful for families with young children.
448. Rope bridge across quarry.
449. More bathrooms with running water and vending machines.

450. Restrooms are greatly appreciated.
451. None.
452. Better hours, better restrooms.
453. Better restroom facilities.
454. Quality restroom facilities that actually function correctly.
455. The bathrooms are almost always dirty. We do not even like to use them. For the amount of people that use this park it is important to have cleaner bathrooms. It also represents this park. Mothers need clean bathrooms to change children, and all people need to feel like they can enter bathrooms without entering an area that is covered in germs and dirt.
456. Nothing.
457. Better bathrooms and playground with swings.
458. Clearly defined and maintained climbing areas and camp sites.
459. Sometimes parking is difficult.

463. Bathrooms.
464. None.
465. None.
466. Places to rest on the trail.
467. The infrastructure at the park is aging. The existing pit toilets are over-used and usually emit a very foul odor when walking by them on the main trail which is over 100 ft away. I have had to use them before and it is terrible as I have to hold my nose and try not to breathe. The toilets should be upgraded to a modern flush system to reduce the smell. Also, the park could use an actual pavilion to allow for better picnics, birthday parties, etc.
468. A small museum showing the history of the area would be nice. There is so much history there, and so little is known about it.
469. None.
470. More trash cans and bathrooms.
471. Shelter, drinking water, rest rooms.
472. more picnic shelters/ areas.
473. Camping.
474. camping with shower/bathrooms.
475. More parking lot spaces.
476. None.
477. The trails could use some maintenance.
478. Some sort of railing/step system should be put in place along the trail at the top of the cliff overlooking the water. It's extremely dangerous. The ground is smooth and sandy, which is so easy to slip on.
479. Larger day use shelter and not enough restrooms to accommodate the visitation.
